Dear Mr. MacCracken,

In December I received a letter from your office saying that on October 4, 1990, Kentucky RSA #3 Cellular General Partnership applied to the Public Service Commission of Kentucky for a Certificate of Public Convenience and Necessity to construct and operate a new cell facility to provide cellular radio service.

In your letter you said that I should write to you with my comments and requests, I would like to ask you a few questions, could you please get back to me with the answers also I would like to have Limited Intervention.

Would the proposed tower have any or cause any interference in our T.V. reception?

Would the tower interfere with the VCR?

Would the tower interfere with our cordless telephone?

If we are going to have interference with our reception

How can we stop the proposed tower from being built?

I will be looking forward to hearing from you.
